MEMORANDUM FOR: Chief, Security Control Staff, I & S  
Att: [REDACTED] 25X1A9a  
Room 1050 I Building

SUBJECT: Security Clearance of Government Personnel Engaged in Economic Defense Program

1. The IWG Secretariat is continuing to make every effort to insure that intelligence material produced in connection with the activities of the Intelligence Working Group (IWG) is distributed only to security-cleared persons within the Government. As a follow-up to our recent conversation on the subject, I am forwarding the following list of those persons who, to my present knowledge, are now or have in the past been engaged in some aspect of the economic defense program.

2. These persons may be directly involved in the program through membership on one or more of the several interagency committees in this field - the Economic Defense Advisory Committee (EDAC), the Executive Committee of EDAC and its working groups, the Joint Operating Committee (JOC), the Advisory Committee on Export Policy (ACEP), its technical task groups, and the IWG. If not designated members on one of the foregoing, these persons may presently be employed by an agency having responsibility in the economic defense field.

3. This list is furnished alphabetically with no listing by committee with the exception of current IWG membership, indicated by double asterisk. A single asterisk is indicated for persons other than IWG members on whom the IWG Secretariat holds a statement of security clearance from an agency other than CIA.

US OFFICIALS ONLY

- A. A review of this list against records and clearance statements available to your office would be appreciated. It is felt that such a cross-checking of records will help to insure that sensitive intelligence material produced by the IWG does not fall into the hands of uncleared persons. This list will be periodically reviewed with new names being brought to your attention.
